Vision

Quality, safety and sustainability are essential to us; we take people's lives to heart. After more than 40 years of design and manufacturing, our passion continues to be the difference. The team at Barry strongly believes in advancing the safety and quality of our products through continuous R&D and testing.

Products and services bearing the Barry Quality & Safety Seal reflect our commitment, unique expertise and innovative solutions in rope and net systems. By keeping safety and quality at the forefront of our business model, Barry has remained an industry-leading producer of high-quality products designed to excel in the harshest environments.

Mission

Barry designs, manufactures and transforms high quality textile-based products and services aimed at protecting people and assets.

Barry listens to the industry's requirements and finds the most appropriate and cost effective solution. We are your solution finder!

About Barry

Established in 1978, Barry Cordage Ltd. designs, manufactures and distributes an extensive range of textile-based products and systems across the globe, while affiliate company Barry USA Inc. serves the U.S. market.

At any given time on the seven continents, hundreds of lives are being protected, preserved and saved by Barry products, systems and services.

Our products are aimed at protecting people and assets, and we are recognized worldwide for our high-quality products, excellent service and knowledgeable customer support.

The Barry team is driven by passion for innovation, safety and quality. Our highly-skilled team receives ongoing technical training, and our state-of-the-art production processes, materials and techniques ensure that only products of the highest quality leave our facilities.

Barry Markets

Companies and government agencies around the world choose Barry products and services for our expertise, quality of workmanship and service. **Our diverse products and systems are used in over 70 countries around the world, in a wide range of industries.**

We specialize in developing custom solutions to complex problems in the following markets:

- | | |
|----------------------------|------------------------------|
| ■ Aeronautical & Aerospace | ■ Worksite Safety |
| ■ Defence & Military | ■ Infrastructure & Transport |
| ■ Utilities & Energy | ■ Construction |

| ■ Safety & Rescue Response | ■ Public Safety |

NP-BTMLC1-F7

Safety Net Panel - Flame Resistant

This polyester fiber mesh netting with flexible PVC coating and sewn webbing border has the required characteristics to be part of safety systems in an industrial environment.

Applications:

- Machine guarding
- Conveyor protection nets
- Debris screening
- Securing concrete structures

SPECIFICATIONS

- Polyester mesh
- Coated with flexible PVC
- Flame resistant (NFPA 701 (2004) *Test 1 and Test 2 Flammability*)
- UV resistance : Excellent
- Colors: Black, white
(Other colors available upon request)
- Finishing: Sewn webbing
- Available in widths of 150 cm (60") or 180 cm (72")
(Assemblies possible for larger widths)

Safety Mesh Panel - Barrytex Polyester Mesh Netting

This polyester fiber mesh netting is lightweight and available in different width options, which make it easy to install.

Applications

- Securing concrete structures (specified by MTQ)
- Debris screening
- Gymnasium screen
- Divider curtains
- Decoration

SPECIFICATIONS

- 100% polyester fiber
- Colors: Black, grey, white
(Other colors available on request)
- Width: 120 cm (48"), 150 cm (60"), 245 cm (96")
or 300 cm (120")
- Finishing (F7): Sewn webbing border

Machine Guarding Safety Nets

Conveyors and other fixed machinery with moving parts are a hazard to workers if access is not limited by guards. In many situations, the use of synthetic safety nets to protect workers offers many advantages over rigid metallic guards.

Machine guarding safety nets are economic, lightweight and easy to open to provide access for equipment maintenance.

These safety nets also provide protection from projectiles that may result from broken equipment or airborne material.

SPECIFICATIONS

- Polyester mesh coated with flexible PVC
- Flame resistant (NFPA 701 (2004) *Test 1 and Test 2 Flammability*)
- Attachment points at top and bottom of nets to connect to steel or synthetic cables
- Ends designed to accept a steel bar for even tensioning
- Custom sized for perfect fit on your equipment

Webbing Nets and Assemblies

Barry can design and manufacture any size of webbing nets, used for transportation and cargo carrying applications (under slung or interior helicopter, plane, trucking, ambulance, racing vehicles).

Custom webbing assemblies such as tie-down straps can also be manufactured according to your specifications.

The webbing material may be mil-spec if required and connecting hardware is available in stainless, galvanized or plated steel, aluminum or plastic.

Webbing nets and assemblies may be tested or certified to meet your requirements.

SPECIFICATIONS

- Webbing materials: Nylon, polyester, polypropylene, aramid, UHMWPE, cotton (Other narrow textiles upon request)
- Webbing width: 13 mm (1/2") to 96 mm (4")
- Square mesh size depending on application
- Many connecting hardware options are available to meet your specific requirements
- Urethane or fire retardant coatings available
